NATIONAL RESEARCH COUNCIL
2101 CONSTITUTION AVENUE, WASHINGTON 25, D. C.

DIVISION OF MEDICAL SCIENCES

12 July 1962

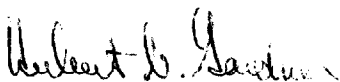

Dr. Joshua Lederberg
Department of Genetics
Stanford University
School of Medicine
Palo Alto, California

Dear Doctor Lederberg:

In Dr. Cannan's absence I wish to acknowledge your letter of 9 July, which will be brought to his attention on his return early next month.

With respect to your last question, I understand that the Japanese geneticists were consulted extensively concerning the formulation of the Child Health Study. Also, collaboration has now developed to the extent that no major studies are undertaken until there has been full consultation with the Japan Advisory Council for ABCC and formal bilingual agreements have been executed. This will obviously apply to the F2 study now under consideration.

Sincerely yours,

Herbert N. Gardner
Executive Secretary, ABCC

HNG/eb

CANNAN
